Hi All

This meeting will be the last for the year as we wind up towards Christmas and businesses start to wind down. Our next Social meeting will be Tuesday 8 January, so if I do not see you before then, have a Merry Christmas and a Happy New Year.

We are at last, starting to enjoy some warm riding weather so make the most of it but remember to ride safe. We want to see everyone in good health and good spirits next year.

Christmas Party 8 December at Tony Collins's home 58 Vincent St Nedlands from 11:30 to 17:00. If you are driving, could you please bring a chair.

Please RSVP by 5th December so that we can cater accordingly

Cost is \$25.00 per head but only \$15:00 if you are bringing a dessert

Payment may be made direct to the Treasurer at the November meeting or by Bank Deposit to our Branch account as below, Please, use your name as the reference so that we can track who has paid.

Name: **Ulysses Club Inc Fremantle Branch; BSB: 036-019. Account: 248086**

We will need 3 or 4 volunteers to help set up from 9:30 so please let Tony know if you can assist.

Catering:

Tony and Kirsten will provide the meats and salads, but we need desserts. (so far one Pavlova confirmed)

Members can bring pre- lunch nibbles and desserts - if they can let Tony or myself know what you are bringing so that we can fill any potential gaps in the menu. We also need 2 "Tong Masters" for the cooking and it will be

BYO drinks

This year has been a good year with many positives, we have relocated to a much nicer venue, at an earlier time as that was what was requested by you, the members of this branch and we have had a lot of fun as well. There have been some sad times as well as we farewelled Alan Leahy. This reminds us that at this time of year when most of us are looking forward to celebrating with friends and family that it can be the loneliest time of year for some. We should, as a club, be looking out for each other and never be afraid to check on a friend and offer your support.

John Pepper 40751

Motorcycle Clothing Star Rating

The star rating for protective motorcycle clothing was launched yesterday Monday 17th September 2018 and the link is www.motocap.com.au

This has been a long time in getting to this point with a large push from all the motorcycle representative groups around Australia since 2004. It has been lead by NSW with input and financial support from all Australian States and Territories.

It has now been officially launched after several years of testing of randomly purchased garments and after giving the manufacturers the past twelve months to get there products assessed and improved. I was at the testing laboratories last week and witnessed the testing procedure and I was very impressed by the level of testing to destruction on a purely scientific basis.

This is just the first step and I feel confident that reputable protective clothing manufacturers will be all to willing to make improvements to there products to achieve a improved star rating as these tests will be ongoing, with retesting on a regular basis.

So go to the website and see the results on motorcycle jackets and pants, I think you may be surprised at some of the results. Cost is not always the best indicator of the safest protective clothing. Once again the website www.motocap.com.au

Cheers

Dave Wright #51871
Ulysses Club Road Safety Committee

New BMW R 1250 family enhanced

November 7, 2018 by Greg Leech

The new BMW R 1250 R, R 1250 RS and R 1250 GS Adventure – Roadster, Sports Touring and Adventure in optimised form and in a new drive dimension.

For decades, the boxer engine in the BMW Motorrad R, RS and GS Adventure models has stood for distinctive, powerful and reliable propulsion when it comes to dynamic riding along country roads, sporty touring or enjoying long-distance trips and motorcycling adventures to the full. For more than 25 years, BMW Motorrad has used 4-valve technology in this connection, combined with electronic fuel injection and closed-loop catalytic converter technology in order to achieve the best possible power and torque delivery, efficiency and environmental compatibility.

Further advanced boxer engine with BMW ShiftCam Technology for an additional increase in power across the entire engine speed range, reduced emission and fuel consumption levels, optimised running smoothness and refinement.

With the extensively further advanced boxer engine, the new R 1250 R, R 1250 GS and R 1250 GS Adventure not only achieve a whole new level of power and torque. It was also possible to significantly optimise refinement and running smoothness – especially within the lower engine speed range. What is more, the new engine offers improved emission and fuel consumption levels as well as a particularly satisfying sound. For this purpose, BMW ShiftCam Technology has been used for the first time in the serial production of BMW Motorrad engines: this enables variation of the valve timings and valve stroke on the intake side.

In addition, the intake camshafts are designed for asynchronous opening of the two intake valves, resulting in enhanced swirl of the fresh, incoming mixture and therefore more effective combustion. Other technical changes to the engine relate to the camshaft drive – now taken care of by a toothed chain (previously a roller chain) – an optimised oil supply, twin-jet injection valves and a new exhaust system.

Two riding modes, ASC and Hill Start Control as standard.

There are two riding modes available as standard in order to be able to adapt the motorcycle to individual rider preferences. The standard Automatic Stability Control ASC ensures a high level of riding safety due to the best possible traction. The set-off assistant Hill Start Control is likewise a standard feature in all three models, enabling convenient set-off on slopes.

Riding Modes Pro, featuring additional riding modes, Dynamic Traction Control DTC, ABS Pro, Hill Start Control Pro and Dynamic Brake Assistant DBC, available as an optional equipment ex-works.

“Riding Modes Pro” is now available as an optional equipment item, featuring the additional riding mode “Dynamic” and “Dynamic Pro” (configurable), Dynamic Traction Control DTC, and in the R 1250 GS Adventure also the riding modes “Enduro” and “Enduro Pro” (configurable). DTC enables even more efficient and safe acceleration, especially when banking.

ABS Pro offers even greater safety when braking, even in banking position. The new Dynamic Brake Control DBC provides additional safety when braking, also in difficult situations, by avoiding unintentional accelerator activation. By means of intervention in the engine control, drive torque is reduced during braking so as to make full use of the braking power at the rear wheel. This keeps the motorcycle stable and shortens the braking distance.

LED headlamp for the R 1250 RS and R 1250 GS Adventure as standard and LED daytime riding light for all three models as an ex-works optional equipment item.

The new R 1250 RS and R 1250 GS Adventure now feature a LED headlamp as standard. In addition to this, the LED daytime riding light is available as an optional equipment item for the R 1250 RS and the R 1250 GS Adventure as well as for the R 1250 R, which has halogen headlamps.

Electronic suspension Dynamic ESA “Next Generation” with fully automatic load compensation as an option.

With the optional equipment item BMW Motorrad Dynamic ESA “Next Generation”, damping automatically adapts to the situation according to riding state and manoeuvres, and there is also automatic compensation in all load states. This allows finely tuned adaptation of the motorcycle to riding states, achieving optimum damping comfort and a very stable ride response.

Connectivity: Multifunctional instrument cluster with 6.5 inch full-colour TFT display offering many features as standard.

The three new boxer models now have the equipment feature Connectivity as standard including a 6.5-inch full-colour TFT screen. In conjunction with the standard BMW Motorrad Multi-Controller, this means the rider can access vehicle and connectivity functions particularly swiftly and conveniently.

Intelligent Emergency Call as an ex-works option.

Ensuring the fastest possible assistance in the event of an accident or in situations of emergency and danger can save people’s lives. The optional equipment item Intelligent Emergency Call summons assistance to the scene as quickly as possible. As before, this feature can be ordered for all three models.

BMW Motorrad Spezial – high-quality customisation features as optional equipment items ex-works.

BMW Motorrad Spezial is range of iconic customisation features that enhance both performance and value, available as optional equipment items ex-works. The focus is on harmonious integration in the vehicle as a whole, use of the very highest-quality materials, elaborate manual workmanship and characteristic attention to detail.

The billet packs Option 719 Classic and HP are available for the new boxer models, for example.

The new R 1250 R and R 1250 RS can also be equipped with the Option 719 Classic or Sport Wheels as well as the exclusive paintwork and the Option 719 seat.

An HP sports silencer is likewise available ex-works for all three new boxer models.

New attractive colours and style variants.

The new boxer models feature one basic finish each as well as two striking style variants. The Option 718 Special Paint Finish is also available for the new R 1250 R and R 1240 RS.

The highlights of the new BMW R 1250 R, BMW R 1250 RS and BMW R 1250 GS Adventure:

- Further developed boxer engine with BMW ShiftCam Technology for variation of the valve timings and valve stroke on the intake side.
- Even more power across the entire engine speed range, optimised fuel consumption and emission levels, increased running smoothness and refinement.
- Increased output and torque: 100 kW (136 hp) at 7 750 rpm and 143 Nm at 6 250 rpm (previously: 92 kW (125 hp) / 125 Nm at 6 750 rpm and 125 Nm at 6 500 rpm).
- Capacity increased to 1 254 cc (previously: 1 170 cc).
- Asynchronous valve opening on the intake side for optimised swirl and therefore more effective combustion.
- Camshaft drive now via toothed chain (previously roller chain)
- Optimised oil supply and piston base cooling.
- Knock sensor system for optimised travel suitability.
- Latest generation of BMS-O engine control and use of twin-jet injection valves for even more effective carburetion.
- New exhaust system for optimum performance characteristics.
- Two riding modes, ASC and Hill Start Control as standard.
- Riding Modes Pro, featuring additional riding modes, Dynamic Traction Control DTC, ABS Pro, Hill Start Control Pro and Dynamic Brake Assistant DBC, available as an optional equipment item ex-works.
- Electronic suspension Dynamic ESA "Next Generation" with fully automatic load compensation.
- Standard adjustability of the seat height on the R 1250 GS Adventure (exception Style HP) as well as a wide range of seat height variants ex-works.
- New optional Sports Handlebars for R 1250 R for a more dynamic riding position.
- In addition to standard adjustability of seat height (exception: HP style for the R 1250 GS Adventure), wide range of seat height variants ex-works.
- LED headlamp for the R 1250 RS (completely new design) and R 1250 GS Adventure as standard; LED daytime riding light for all models as an ex-works optional equipment item.
- Connectivity: Multifunctional instrument cluster with 6.5 inch full-colour TFT display offering many features as standard.
- Intelligent Emergency Call as an ex-works option.
- BMW Motorrad Spezial – customisation features as optional equipment items ex-works.
- Extended range of optional equipment items and original BMW Motorrad Accessories.
- The new R 1250 R:
 - Dynamic naked bike character in one basic colour, two style variants and Option 719 Spezial finishes.
- The new R 1250 RS: Sport and touring character in one basic colour, two style variants and Option 719 Spezial finishes.
- New front spoiler and cockpit cover (R 1250 R and R 1250 RS).
- Newly designed upper trim (R 1250 RS).
- The new F 1250 GS Adventure: Off-road and adventure prowess in two modern basic finishes and two striking style variants.
- R 1250 GS Adventure with new body features such as black-grained lid for storage compartment with embossed GS logo, trim for the intake snorkel, radiator trim with electroplated look, tank bracket and engine protection bars adapted to the design of the body frame.

**The Tasty
Tom Piper Twins**

**LUNCHEON BEEF
and CAMP PIE** in the
latest American-style Square
Cans for easy opening, safe
handling, attractive serving!

ONCE you have tasted the new Tom Piper square
cans, you will never go back to the old, out-of-date
way of serving Luncheon Beef and Camp Pie. These square
cans open simply, quickly and safely with the attached
Parade key. The contents slide out easily and neatly
and look appealing. And doing so in such better taste—
particularly for lunch-making and when you want to
try a few slices in egg and bread—makes. Ask your grocer
for Tom Piper. It tastes good—in good food should.

THE ONLY SQUARE CANNED FOODS IN THE WHOLE WORLD

10

SOME LIGHT HUMOUR

Pest Control

A woman was having a passionate affair with an Irish inspector from a pest-control company. One afternoon they were carrying on in the bedroom together when her husband arrived home unexpectedly.

'Quick,' said the woman to the lover, 'into the closet!' and she pushed him in the closet, stark naked.

The husband, however, became suspicious and after a search of the bedroom discovered the man in the closet. 'Who are you?' he asked him.

'I'm an inspector from Bugs-B-Gone,' said the exterminator.

'What are you doing in there?' the husband asked.

'I'm investigating a complaint about an infestation of moths,' the man replied.

'And where are your clothes?' asked the husband.

The man looked down at himself and said, 'Those little bastards!'

Husbands are husbands

A man was sitting reading his papers when his wife hit him round the head with a frying pan.

'What was that for?' the man asked.

The wife replied, 'That was for the piece of paper with the name Betty on it that I found in your trouser pocket.'

The man then said 'When I was at the races last week, Betty was the name of the horse I bet on.'

The wife apologized and went on with the housework.

Three days later the man is watching TV when his wife bashes him on the head with an even bigger frying pan, knocking him unconscious.

Upon re-gaining consciousness the man asked why she had hit him again.

Wife replied, 'Your horse phoned!'

Son: 'Mum, when I was on the bus with Dad this morning, he told me to give up my seat to a lady.'

Mum: 'Well, you have done the right thing.'

Son: 'But mum, I was sitting on Daddy's lap.'

Marriage Humour

Wife: 'What are you doing?'

Husband: Nothing.

Wife: 'Nothing . . . ? You've been reading our marriage certificate for an hour.'

Husband: 'I was looking for the expiration date.'

Wife: 'Do you want dinner?'

Husband: 'Sure! What are my choices?'

Wife: 'Yes or no.'

Two drunks visit a brothel.
The madam takes a look at
them and says to the girls.
"Get 2 inflatable dolls, these
guys are too drunk to notice"
During the walk home one
guy says to the other.
"I think my girl was dead, she
never made a sound or
moved"
The second guy says.
"Well I think mine was a
witch"
"Why do you think that?"
asked the first guy.
"Well I bit her on the arse,
and then she flew out the
window!!"
