Hi members

Great News!!

After being unable to hold our Social Meeting for the last two months due to the Covid-19 restrictions, finally we will be allowed to get together. However, Social Distancing and Hand Sanitising will still be de rigueur. Our first Social Meeting will be Tuesday 9th June at The Hamilton Tavern. The meeting will commence at 7:30pm but why not come earlier and have a meal and a good chat.

For those intending to attend our Social Meeting tomorrow night, Social Distancing will still be required as below;

1. **Upon entry:** you will need to sign a [Contact Book](#) OR show that you have the [Covid app](#) on your phone. If you do not currently have the Covid app you may download it from either Google Play or Apple's App Store.
2. **Seating:** Will be every second chair space. ie One person seated, vacant space before the next person.
3. **Sanitising Stations:** I have been advised that there will be plenty of sanitising stations which you will be required to use.

Rides

We have had some mixed weather for rides, some with excellent weather however a couple had to be cancelled due to the recent storms. We need Ride Leaders (as usual) so please let either our Ride Coordinator Reg, or me know if you would like to take one.

It certainly was great to get out for a ride in May and despite not being able to sit in a café, we were still able to find places that served up some decent takeaway food.

Many thanks to Ron Spencer for updating our website with the Covid-19 Restrictions and a Ride Register whilst it was required.

20th Anniversary Celebrations 2020

If all goes well, we may be able to reschedule this for late this year. At this stage, we are looking to see if September is possible. You may remember that planning was well under way when the Pandemic hit.

Stay safe

John Pepper 40751

PRODUCTION OF MV AGUSTA RUSH 1000 TO START IN JUNE

21 May 2020

Only 300 units of MV Agusta's limited edition Rush 1000 hyper naked will be produced

MV Agusta will be starting the production of its Rush 1000 “drag strip-inspired” bike in June this year. The first bikes will be rolling out of the Lake Varese hangars towards the end of the same month, ready for the privileged owners who pre-ordered their Rush 1000 online and through MV Agusta’s worldwide dealers network.

The mean looking Rush 1000, with its 4-inline-cylinder engine, 208 HP (212 HP with the Racing Kit) and a top speed of over 300 km/h, is a model aimed at those who do not fear to stand out from the crowd, as the style and components are appropriately focused on emphasizing the concept of a hyper naked “beast”. The aerodynamic rear wheel cover, a technical solution used in drag races to reduce the coefficient of drag, represents a clear statement of this attitude.

All of MV Agusta's engineering know-how is packed into the Rush 1000 and draws on Formula1 and MotoGP technology, offering a thrilling out-of-this-world riding experience, with hair-raising true MotoGP replica performance. The 8-level traction control and "launch control" systems help managing the bike's beastly acceleration and rocket-like starts. Together with the EAS 2.1 Up & Down for clutch-free changes and the wheelie control system, they contribute to making the Rush 1000 easy and fun to handle with maximum safety. The Rush personality is further enhanced by the Öhlins EC suspension units with electronic control and the aluminum and steel trellis frame, both adopted from the Brutale 1000 RR along with the Brembo Stylema calipers and the Bosch 9 Plus Race ABS.

The design of the Rush 1000 lives up to everything one would expect from an MV Agusta limited series, starting from the many unique details such as the specially designed headlight unit, spoke front wheel, the minimalist rear subframe and passenger seat as well as the unique side exit exhausts. The livery of the MV Agusta Rush 1000 is a pure statement of style and elegance, with dark metallic matt grey, Mamba red matt carbon and metallic bronze.

The optional Rush Racing Kit is composed of an extremely light weight titanium dual exhaust silencer system with a dedicated carbon fiber cover with billet CNC machined inserts as well as a engine ECU with a specifically developed engine control system map to increase and optimize the power. Also included is a unique carbon fiber passenger seat cover.

Timur Sardarov, CEO of MV Agusta Motors S.p.A. commented: "With the production of the Rush 1000 starting this coming June, we are right on track with respect to our 5 year industrial plan announced a few weeks ago. As we are breaking new ground in our expansion journey into new segments and new markets, MV Agusta will continue to produce amazing works of exclusive motorcycle art from its headquarters in Italy, remaining true to its heritage of performance, elegance and state-of-the art technology. I am sure this incredibly attractive model will meet the enthusiasm of the proud new owners."

SOME LIGHT HUMOUR

Two female teachers took a group of students from grades 1, 2 and 3 for a field trip to Flemington Racecourse.

When it was time to take the children to the 'bathroom', it was decided that the girls would go with one teacher and the boys would go with the other.

The teacher assigned to the boys was waiting outside the men's toilet when one of the boys came out and told her that none of them could reach the urinal.

Having no choice, she went inside, helped the little boys with their pants and began hoisting them up one by one, holding on to their 'wee-wees' to direct the flow away from their clothes and shake them dry.

As she lifted one boy up, she couldn't help but notice that he was unusually well endowed. Trying not to show that she was staring at his equipment the teacher said, 'You must be in Grade 3?'

'No ma'am', he replied. 'I'm riding Black Caviar in the next race, but I really appreciate your help.'

Defense Attorney:

Will you please state your age?

Old Lady:

I am **94** years old.

Defence Attorney:

Will you tell us, in your own words, what happened the night of April 1st?

Old Lady:

There I was, sitting there in my swing on my front porch on a warm spring evening, When a young man comes creeping up on the porch and sat down beside me.

Defence Attorney:

Did you know him?

Old Lady:

No, but he sure was friendly.

Defence Attorney:

What happened after he sat down?

Old Lady:

He started to rub my thigh.

Cont.....

Defence Attorney:

Did you stop him?

Old Lady:

No, I didn't stop him.

Defence Attorney:

Why not?

Little Old Lady:

It felt good. Nobody had done that since my Albert died some 30 years ago.

Defence Attorney:

What happened next?

Old Lady:

He began to rub all over my body.

Defence Attorney:

Did you stop him then?

Old Lady:

No, I did not stop him.

Defence Attorney:

Why not?

Old Lady:

His rubbing made me feel all alive and excited. I haven't felt that good in years!

Defence Attorney:

What happened next?

Old Lady:

Well, by then, I was feeling so spicy' that I just laid down and told him
'Take me, young man. Take me now!'

Defence Attorney:

Did he take you?

Old Lady:

Hell, no! He just yelled, '**April Fool!**' And that's when I shot him, the little bastard!!!!!!
